## Vamos al espacio

Let's go to Space

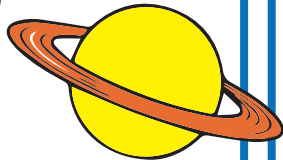

### Overview:

We are going on our furthest adventure ever for this unit...TO OUTER SPACE!! All kids love a good space adventure and through this unit we will learn to identify and name different things we would see in outer space as we pretend to be astronauts exploring everything. Older kids will even learn how to name the planets in Spanish and we will incorporate more vocabulary as students show interest in saying different words.

### Vocabulary:

Space – Espacio  
Dark – Oscuro  
Moon – Luna  
Sun-Sol  
Star – Estrella  
Astronaut – Astronauta  
Rocket – Cohete  
Spacecraft- Nave espacial  
Planeta – Planet  
Cometa – Comet  
Meteorito - Meteor  
Asteroide - Asteroid  
Galaxia- Galaxy  
Marciano - Martian  
Constelación -Constelation  
-Satélite -Satellite

### Songs:

**Vamos al espacio** (Tune of Itsy Bitsy Spider)  
Subanse a la nave  
Nos vamos al espacio  
Vamos a la luna y a ver planetas  
Somos astronautas nos gusta explorar  
Ya estamos listos tenemos que contar  
10-9-8-7-6-5-4-3-2-1!!!

**Nueve Planetas** (Tune of 10 Little Indians)  
Uno, dos, tres planetas  
Cuatro, cinco, seis planetas,  
Siente, ocho, nueve planetas  
Girando en el espacio.

### Tips:

Look through a book about space. Name some of the vocabulary items and have your child point.

Draw/Color a picture of space together naming the things you need to include in Spanish.
